SUMMARY

Creative and motivated Front-End Developer with a growing interest in backend technologies, working towards full-stack development. Passionate about structuring systems, driving projects, and leveraging data to create impactful solutions. Beyond my technical skills, I have a unique blend of hands-on experience in food technology, quality systems, essential oils distillation and sustainable practices such as permaculture and agroforestry. I am constantly expanding my skills, both in coding and through my personal interests and projects.

PROJECT EXPERIENCE

⚙ DestillApp – Full Stack Web App (solo) GitHub | Demo
